Dear John,

I am writing to introduce a unique new course at Seneca, *Political Staff Essentials*. The course was developed to give political staff a comprehensive grounding in essential skills and to supplement the training that each political party and the Legislature is able to offer. We believe the course will give your staff an invaluable insight into the workings of Queen's Park.

Without exception, the course has been enthusiastically endorsed by every veteran of Queen's Park we've spoken to, and an impressive group of advisors representing all parties came together to help course leader Hershell Ezrin design the curriculum. The range of political and public service experts we have assembled as guest lecturers offers all participants an unparalleled learning opportunity in a multipartisan setting.

You'll find more details about the course, including the impressive line-up of guest lecturers and how to register, in the attached flyer. We have deliberately kept the costs associated with the four-day session at a modest \$430 per person.

If you have any questions, please contact Barb Pimenoff at Seneca by **email** or phone 416-491-5050, ext 22504.

Yours sincerely,

David Agnew, President
